Additional descriptive comments on figurative or decorative portion of the exterior:

this fragment is of an eye and eyelid, as well as a small part of a head. The raised eyeball and ~~elaborated~~ elaborated eyelid of this portion imply that it may have been a zoomorphic figurine, but there is no definitive way to tell. The triangular piece on the top that was incised has broken off post processing. It was probably once part of a hollow figurine.

The item is: not eroded - slightly - moderately - very - extremely eroded.

It: has - does not have other damage. Describe:

Not drawn - drawn Where? on back
